

Submitter: Dev Chilson
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2006

I am a retired psychologist, and I worked for 30 years or so with adolescent offenders in the Hillsboro area. My observations support research conclusions that full adult decision-making abilities are not complete until a person is in his 20's. (I use the male pronoun because my clients were male, and also because males tend to mature later than females.)

This bill is the least we can do to improve public safety.

Respectfully,
Dr. Dev Chilson
