

Submitter: Cheryl Dolby

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

AS a Mother and Grandmother and Great Grandmother and Christian it pains and disturbs me greatly to think anyone would even consider allowing the immoral activities you are considering with the House Bill 2002. Have any of you studied or even read history? Your House Bill 2002 seems to fall right in line with the atrocious activities Hitler did in WW II.

Are you all Hitler lovers and followers? Taking authority away from parents, trying to dismantle the family unit, teaching children to be dishonest by not telling parents what goes on in school, this is all anti American, anti Constitution, against all our founders faught for and struggled for. You are in favor of killing babies, but you are against the death penalty for murderers. How much more immoral can you get? Taking authority away from parents, lying to those children and parents is immoral, against all rational thinking.
