

Submitter: Robin Bloomgarden

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB2713

I Support HB 2713 Cities Right to Electrify

I have been working with numerous coalition groups for years to get Eugene to ban gas fueled new housing. We finally got low-rise done last month and we need to protect our rights to make our own decisions about how to de-carbonize our communities!!

I fully support this bill, and do not support having people from outside coming in to ram something else down our throats. Those from outside would most probably be “natural” gas companies and their cronies. It’s all about profits for them, while for us it’s all about making life healthier for our children and ourselves, only. No monetary gain for most of us.

Please vote to support and move this bill to the next level soon.

Thank you,
Robin Bloomgarden
