

Submitter: Shauna Engbrecht

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

This is absolutely an injustice to both a parent and a child To be able to perform mutalations to a. Child's body without even a parents knowledge I think we have a sick perverted government in Oregon. And I've lived here all my life. The other part to this bill not allowing a protest near an abortion mill or allow free speech I think takes away the very heart of our constitution I believe our constitution states we as Americans have freedom of religion, speech, assembly, and petition Did you not take an oath of office to uphold the constitution ?
