

Submitter: Deborah Noble

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1051

Good Evening,

I am in opposition to SB 1051 as the legislation would promote undesirable urban sprawl.

With community input and wise planning, affordable housing needs can be met within the current UGBs.

In recent years, we have witnessed our land-use system of five decades being chipped away by pressures of development forces which most often do not serve community interests. Please reject SB 1051 in favor of keeping Oregon in sync with Tom McCall's vision of thoughtful planning for our future.

Thank You,

Deborah Noble
