

Submitter: Sally Klein

On Behalf Of: Decency

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

To the immoral designers of this Bill .....

The 82nd Oregon Legislative is about to go down as the most sick and depraved group of individuals assembled in the history of a once great state. Even if this is not passed, the fact that each of you supported the concept is proof you no longer have a conscious.

Even my Bernie supporting, liberal neighbors didn't believe me when I told them this is the kind of groupthink going on in that Salem marble nuthouse.

There is no decency left amongst you.

Disgusted and feeling ill,

Sally Klein
