

Testimony on Senate Bill 1076

March 20, 2023

Chair Patterson, Vice Chair Hayden, and Committee Members:

I support SB 1076

Legitimate reasons can always be found to say no to virtually any question. But the question at hand is not whether SB 1076 places unfair burdens on business activity, it's whether SB 1076 will save peoples' lives. Undeniably, the answer is yes! Framing the question from a business perspective ignores the reality that fewer unhoused human beings will die if SB 1076 is enacted.

Please pass SB 1076

Thank you,
