

Submitter: Dan H

On Behalf Of: self

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I oppose this legislation. As a parent, I have a right (as well as a responsibility) to take care of my own children. That gives me the right to know and understand healthcare is being provided to my children. This legislation is wrong, morally and ethically wrong in so many ways. It can also be dangerous to the child. Please vote NO on this bill. Thank you.
