

Submitter: Shilah Metzler

On Behalf Of: HB 2002

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I oppose this bill. As citizens of the United States we should have the right to parent our children. A child not young enough to drink alcohol or consent does not have the brain maturity level to make life altering, and permanent decisions for their body. I will not support a bill that pays for children to take dangerous hormones without a parents guidance or consent. Research shows that gender dysphoria resolves itself 80-90% of the time.
