

Submitter: Colleen Dick  
On Behalf Of: Myself  
Committee: House Committee On Judiciary  
Measure: HB2006

You are trampling on the rights of US citizens and ignoring the meaning of the 2nd amendment to the US Constitution. As a US Army veteran who enlisted at the tail end of the Vietnam conflict, I find your complete disregard of the value of youth 18 to 20 to be despicable. People that age are often more cognizant, responsible and trustworthy than older individuals. You will allow them to vote, to give their life and limbs to protect the values of the United States in both the military and emergency response but not trust them to use a gun to go hunting, compete in shooting events or to just target shoot. If this bill passes, you should all be very ashamed of your corrupt and tainted view of youth.
