

Submitter: Cindy Gibbons

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB1051

The housing crisis is promoted by restrictive zoning, environmental, rules to prevent development. This bill will help to provide land for development.

The "homeless crisis" is not a lack of housing but a drug and alcohol epidemic with city and state agencies promoting the problem by providing supplies to enable camping and homelessness, trashing the former beautiful city of Portland. There is a 50% vacancy for rehab beds. City and state are mis-labeling the true problem of homelessness which is alcohol and drug addiction of people who don't want re-hab.
