

Submitter: Louise Nardi

On Behalf Of:

Committee: Senate Committee On Health Care

Measure: SB1046

I oppose SB 1046

Section 1, sub-section (B) states it is inclusive but not limited to enrollees with diverse cultural and ethnic backgrounds, sexual orientation and gender identities. This is racist in tone since all people are diverse and have cultural and ethnic backgrounds. Requiring a regulation for health care carriers to provide special services based on the melanin content of their skin is abhorrent.

Providing gender transformation surgery and/or medicinal castration should not be a requirement that a health carrier is forced to offer along with abortion services which are identified as reproductive health care.

I respectfully ask for a NO vote on SB 1046.
