Committee:                               House Committee On Judiciary  
Measure:                                  HB2006

As a victim of a High School shooting at Thurston High School in Springfield, Oregon in 1998 I am strongly in support of this bill. The statistics and data show adding an increased age limitation to the purchasing of certain firearms will made a lasting and immediate impact on violent crimes utilizing these types of automatic weapons. We as a state and as a nation have the responsibility to one another to continue to keep our nation safe-in all ways. The impact of the shooting I experienced as an 18 year old high school student will forever live with me, if we can prevent future shootings from impacting our future generations we owe it to our fellow Oregonians to make the necessary changes.
