Measure: HB3214

Seriously, don't you guys have anything better to worry about? Maybe human children exploited in "talent shows" ?

This is just more of the liberal agenda tilting at woke windmills. There's many wonderful animal shows now and in the past that have p joy to the audience and treated the animals with proper love and care.

Siegfried and Roy is one famous example where if this was the law- their act wouldn't have been allowed.

Go do something useful like protecting kids from pedophiles who read them stories during "drag storytime"
