Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I'm writing to urge you to oppose HB 2002.

As principal of a school, with decades of experience, I know that families are necessary for the upbringing of a child. Communication with families is what allows the system to work, without it there is a break down that definitely hampers the education of the student. Some families are fractured, and communication is difficult, but this is not a reason to pass laws that make it impossible to keep the lines of communication open between family and child., This is a step that places the school in a position that will harm many families and rob the child of the support that would be the most valuable for the child.

This bill would definitely undermine parents rights.
