

Submitter: Jim Pittenger
On Behalf Of: HB 2007
Committee: House Committee On Judiciary
Measure: HB2007

As both a citizen in a public building and as a worker in same, I want the opportunity to know what I am dealing with in terms of weapons in the area. HB 2007 will provide agencies the power to set policy yea or nay on concealed carry on the premises. The policy will then be made public so that I have the ability to choose an important aspect of the safety of my environment. i know that given the knowledge that concealed carry is permitted in an area, I will make determined efforts to avoid it, to carry on my business at a distance if possible.
