

Submitter: Charles Booth

On Behalf Of: Self

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

This is not healthcare this is assisted self-mutilation. While European nations have recognized the damage these drugs and procedures do to children and have taken moves to outlaw them you are proceeding with insanity. This is also a move to further remove parental rights and give control to the state and this needs to cease. We don't allow children to drink smoke or make other serious life-altering decisions so to allow this is categorically ridiculous and the very definition of insanity. Just no!!!!
