

Submitter: Meghan Schiedel  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2006

Dear Oregon Legislature,

I have two girls, ages 6 and 8, and I beg you to take action to help keep them and all people in our community safe by increasing the age of ownership of assault rifles to 21. Please follow the brain science that says that brain development indicates that young people's brains are not fully developed until age 21. This results in limited reasoning and impulse control. The rise of social media makes this group extremely vulnerable to unsafe or violent choices due to its influence on the internet. Please take action to keep our community safe.

Meghan Schiedel
