

Submitter: Lamont Wolverton
On Behalf Of: A Hard NO
Committee: House Committee On Judiciary
Measure: HB2007

HB 2007 is way out of line with it's limitations. I can't get over all the new legislation that is intended to limit, restrict or deter law abiding Oregonians, but reward the repeat offenders off with a Domino's Gift Card!

I worked hard to get my Eagle Scout award, perform my duties for Oregon's betterment, spend massive hours learning safe firearm practices, CHL certifications, range time and tactical senecios just to be judged unfit to protect myself and family from others that don't understand what made America what it is.

This law will only put into jeopardy more innocent victim's that are subject to over reaching laws. Move your focus to criminals, enough said, can't believe I need to go there!
