

Submitter: Anita Bigelow

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3464

Not only are beavers the state animal but they also perform a valuable function in creating and maintaining wetlands. If they are no longer deemed as predatory they can be monitored on private land — and relocated where needed — by the Department of Fish and Wildlife. HB3464 is a simple and common sense bill that will have an environmentally beneficial impact.
