

Submitter: Susan Wolling

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure: HB3464

Dear Legislators,

I hope you will support HB 3464 to facilitate the role of beavers in preserving/restoring habitat in Oregon. While I recognize that in some situations, beaver activity can be destructive of productive use of private land, there are many situations in which beavers can enhance wetlands, create salmon habitat, help to sequester carbon, and limit fire activity. HB 3464 would allow the state to make appropriate use of our state animal for services which they provide more economically and effectively than we humans can. Please support HB 3464.
