

Submitter: Taryne Saunders

On Behalf Of: My children

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Keeping parents out of any discussion that involves their child is not only illegal, it is abhorrent and is very telling of what kind of state you are hoping Oregon will become. I oppose any bill that promotes the murder of unborn babies, and the obvious attempt to get children to hide things from their parents.

Leave our kids alone!
