

Submitter: Peggy L

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

Please do not support a bill that gives children, minors, the ability to make decisions without their family, especially regarding pharmaceuticals, drug treatment, abortions, and gender transition medication. Oregon already ranks last for family units, first for most children in foster care. The state should not be authorizing others to provide care (without liability!) to minors.
