

Submitter: Amy Pocol

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

This house bill is insane. Absolutely scary. Who in the right mind thinks it's ok to kill a baby?? No one should answer yes to that question. And now, now you want to allow kids to kill their own babies at any age?? You have to be sick to think that this is ok. In America we should fight for life. So fight for the unborn child's life.

And instead of giving a child an option to kill their unborn child why don't you give them education about what it means to have sex and get pregnant. If you would teach a child that then there would be no pregnancy to abort.

Whoever is for this bill is a sick sick human being. No worse than the terrorist who kill in the name of their "god". A child is a child regardless if they are in the belly of a mom or outside of it.

Please consider what damage you will be doing to kids teenagers and people in our state if you pass this bill
