

Submitter: Jeanene Dumont

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

Rental Property is a Business and an Investment, so why would the State be able to restrict that business/investment when it does not for any other business or investment. The amount renters are willing to pay for rent will control the amount charged. If you make owning rental property too difficult then where will the renters live??

Also the owning of property is an American Right, to be charged outrageous amount to change how we use our own property should be illegal.
