

Submitter: ADAM STEBBINS
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2006

Extending the age of firearms possession 3 years to age 21 has no fact based positive impacts. This is just another anti-second amendment legislation proposal that is not fact based and should be rejected. There is no facts associated with extending the age of purchase and possession, especially given all the other legal guarantees given at age 18.
