

Submitter: Marian Szewc

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

This bill is horrid. Simply horrid: to give children important decision making power before their own brains are developed. If you have to hide the doctors doing this and decriminalize the concealing the birth of an infant with intent to conceal the fact of its birth or to prevent a determination of whether it was born dead or alive. This bill would legalize that activity!!! Life is valuable. You are creating a world gone mad with this craziness.
