

Submitter: Paul Emge

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB859

So, now, our legislators not only want the public to tolerate homelessness, they are encouraging it by not having these people maintain, among other things, public health standards, there will be another HUGE influx of homeless individuals. This bill needs to have included in it a provision which allows all homeless people to encamp on the property of any legislator who votes to support it!!

Vote against SB859 !!
