Committee: House Committee On Judiciary  
Measure: HB2006

NO ON HB 2006

In Oregon, teens can take hormones without parental consent starting at age 15. Join the military and fight and die at age 17 with parents waiver. Vote at age 18. Sign up for college loans to put themselves in debt at 18.. Is anyone trying to increase the age requirement for the above things to age 21? This is a constitutional right and denying adults the right to protect themselves is against the constitution .
