

Submitter: Mair Jetmalani

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

My name is Dr. Mair Jetmalani and I am writing to express my full support for House Bill 2002, Reproductive Health and Access to Care. People should have the right to make choices about their own body and medical care. All people should have access to safe, and life-saving medical care. Providers should not be in fear when providing medical care that is evidence-based and supported by our scientific community. Religion should not be involved in political decisions. I urge you to vote yes on HB 2002. Thank you for your time.
