

Submitter: Marilyn Kay Knott

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

I oppose HB 2005 and encourage it be voted down.

Home constructed guns are just as safe as any other gun. They can be registered.

There is virtually no difference between them and ready built guns.

It's ridiculous to bar young adults under the age of 21 from having guns. They and the community are better served with them learning to safely handle a gun, and learn to respect it. It would be much more practical to teach them respect in general.

VOTE NO!
