

Submitter: Brian Hudspeth  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB2005

Committee members,

Is this really a problem? I would like to know the percentage of crimes where an unserialized firearm is used? My guess is its less that 2%. Why are you wasting my tax dollars on bills like this, that do nothing to solve the problems of mental health, and fighting criminals? Let's do better in Oregon, and take on the real issues, and quite creating fear around pieces of metal!
