

Submitter: Brian Hudspeth
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2007

committee Members,

This bill is yet another attempt at trying to regulate law abiding citizens. Do you really think that putting up a sign that says "no weapons allowed on premises" is going to stop ANYONE that wants to do other harm? I really hope that our elected leaders are not that IGNORANT! concealed carry individuals all go through additional background checks, as well as required training to obtain the permit. THESE are not the people we need to be worried about, it's the insane, and mentally deranged people we need to worry about, and they DON'T care what the sign on the front door says. All this bill will do is prevent good honest law abiding citizens from protecting innocence in an unimaginable situation! lets not make Oregonians more venerable, lets make them stronger, let the protectors, the people that would carry concealed be the front line!
