On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2005

Chair Kropf, Vice Chairs Andersen and Walan and members of the House Judiciary Committee:

As an Oregon resident, and as a human, the lack of control of guns and the ease in which they are purchased, plus the lack of laws surrounding them has made this issue a basic safety issue in all communities. We need more laws to stop the epidemic of guns.

Thanks for doing the right thing to make our state safe.
