Measure: HB2007

The second amendment does not give the right to carry and concealed firearm whenever and where ever you choose. Firearms do not make us safer. If they did America would be the safest country in the world but we all know that is far from the truth. The requirements for obtaining a concealed carry permit are minimal. I know from personal experience. The "class" I paid for and took but more of an anti-government conspiracy theory crash course than anything regard firearm safety.
