

Submitter: Cindy Allen

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I oppose HB2002

We are talking about children who need their parents in their life. This bill usurps parental authority.

What emergency? This is planned and there is no health emergency here.

Health care is about promoting recovery from disease. This bill is not about reproductive health, but allows for mutilation, which is wrong.

This bill will also put protection for child abuse by limiting mandatory reporting.

Cindy Allen
