

Submitter: Melissa Shults

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I believe that life begins at conception and that the parents of that child have a legal and moral responsibility for that child. I also believe that parents have legal and moral rights for their child. Rights that are not to be usurped by anyone whose agenda is counter to the parents wishes for their child and/or is accomplished without the parents consent.

This bill, HB 2002, will abolish parental rights and is wrong legally and morally. Please vote no for HB 2002.
