Committee: House Committee On Climate, Energy, and Environment

Measure: HB3464

To the House Committee on Climate, Energy & Environment

Dear Committee members,

I fully support HB 3464 and urge you to do the same. The beaver is an iconic Oregon symbol (not to mention mascot of my favored Oregon University) and should be delisted as a predatory animal. Instead, beavers, like all wildlife, are just trying to make a living. Sound familiar? Oregonians value wildlife. They are a part of who we are. Help the beavers by advancing this piece of legislation.

Thank you,

John Drzal
