

Submitter: Lara Weyl
On Behalf Of:
Committee: House Committee On Rules
Measure: HB3592

To Our Oregon Legislators,

I am writing in support of House Bill 3592. I am an OB/Gyn and I am acutely aware of the need for timely, urgent obstetrical services. It is even more crucial in underserved, low income populations where socioeconomic factors already adversely affect health outcomes.

In our field of obstetrics, minutes can be the difference between life and death for a mother or a baby. I urge you to pass House Bill 3592 to help protect disadvantaged communities and prevent them from losing these lifesaving obstetrical services.

Thank you for your time and consideration,

Dr. Lara Weyl
