

Submitter: William Mosser

On Behalf
Of:

Committee: Joint Committee On Ways and Means Subcommittee On Natural
Resources

Measure: SB5509

I hope you will continue to fully fund staff positions at the ODFW (ODFW POP 107) so they are able to work on Integrated Water Resource Solutions, and also fund ODFW POP 102 for Statewide Stream Temperature Modeling.

Working to protect our rivers and the habitat for native species that live there is so important to everyone. This money is a wise investment in our natural resources and quality of life.
