

Submitter: Nona Gamel

On Behalf Of:

Committee: House Committee On Behavioral Health and Health Care

Measure: HB2002

I am 77 years old, a cis gender woman. In my life I have seen so much suffering that has resulted from people being denied the reproductive and gender affirming care they need. As more states codify punishment for reproductive care, as providers and people seeking gender affirming care and family planning care are threatened and harassed, I hope that Oregon will stand up for human rights.
