Measure: SB611

When I was a child my father was in the Navy Reserve after serving in World War II. He got called up to serve in the Korean war. My parents were able to rent out their home so the family could follow him to his home port in California. Both my parents have passed so I can't ask the exact financial details, but I know they rented their house and that we were able to return to it. I am sure with the pay cut he took to go back in the service he could not have afforded to pay someone three months of rent in advance while making the mortgage payments on that recently purchased house.

Will families be kept apart as an unintended consequence of SB 611?
