On Behalf  
Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and  
Water

Measure: HB2659

Hello,

I'd like to express my opposition to this legislation. It will only make affordable, dense housing harder to build. It will scrap required climate rules that activists have fought for in good faith. There's still the opportunity to not pass this legislation and work with those who want our state to continue to build smart, affordable dense housing. Please don't scrap restrictions on requiring parking in new dense housing; please don't allow cities to completely bypass any of the rules this legislation wants to overturn. In conclusion, this legislation will be bad for our state, and I am in opposition. Please heed this message and vote this down.

Thank you,  
Jonathan Greenwood
