

Submitter: Rose Kaler

On Behalf Of: myself

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure: HJR23

concerning HJR 23

I oppose this bill.

Before presenting a bill to take more from the working man, how about showing us a real plan to solve the issue? Work more with the agriculture farmers, not invite large industry into our state that will ruin our water tables?

I would be all for helping the farmers solve the drought issues, just need to see a plan that the farmers can count on.

Our state needs to keep farmers in business to keep our citizens fed.

This bill feels like a money grab with no real plan to fix the situation.
