Measure: HB2005

Once again you'll try and pass a law that is unconstitutional. Manufacturing, importing, sell or transfer? Do you have any idea the repercussions on sports shops, fun stores and more importantly the rights of the people. Then you stick to law abiding citizens that own and operate legally. Of course criminals will continue to break these laws and as per usual nothing will happen. This is against our rights as Americans. Stop shoving communism down our throats.
