Measure: HB2005

I oppose this bill because we have the right to make our own firearms or purchase them. Nowhere in the Constitution does it require that a home made gun have a serial number on it. And this law will make it illegal for a person to even get a serial number put on the gun, which a gunsmith can legally do, but this law would forbid the transport of the home made gun to the gun dealer in order to get a serial number. In any event, to my knowledge, the serial number on a gun has never been used to solve a crime because is no registry of serial numbers held by the government that ties the serial number to an owner.
