

Submitter: Yeo Sire
On Behalf Of:
Committee: House Committee On Judiciary
Measure: HB2005
HB 2006: NO

If I have the talent and craftsmanship to build my own firearms, for my own use I should be able to, and it is my god given right to do so. Why should I have to buy a firearm that someone else made when I could do it myself. Just like I should have the right to grow my own vegetables rather than buying them from someone else who grew them. You people should be concentrating on getting LEGAL drug use back under CONTROL, and get crime under control, and leave law abiding citizens alone. Just like our leaders to think that passing a law and make legal citizens now criminals is a good idea should go read our constitution.
