

Submitter: Jessica Kushner

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB2007

Chair Kropf, Vice Chairs Andersen and Walan and members of the House Judiciary Committee:

I support HB 2007 for the good of our community. As a medical provider at a large public health facility in Portland, as well as a member of a community impacted by increases in Anti-semitism, our city and county governments should be allowed to ban guns from public buildings, including by concealed carry permit holders. Right now, concealed carry permit holders can bring guns into buildings even if they say its a "gun free zone".
