

Submitter: Sheila Dooley

On Behalf Of:

Committee: Senate Committee On Natural Resources

Measure: SB85

Please move forward the SB 85 -1 amendment as it is more protective than the -3 amendment. The -1 amendment is an 8- year CAFO moratorium.

The -3 amendment would be a poultry-only moratorium expiring in January 2025. It would not protect us from industrial chicken operations moving in ASAP after that date and continuing to expand.

Please support SB 85 with the -1 amendment. If this bill does not pass, the state will be giving up its only chance to regulate factory farms. In the future, regulations protecting “right to farm” will take precedence.

Thank you,

Sheila Dooley
