

Submitter: Kathleen Sauls

On Behalf Of:

Committee: Senate Committee On Housing and Development

Measure: SB611

Why are you trying to stop building or supplying housing in the State of Oregon. Why should a landlord pay someone money to move out? Why should a landlord give a tenant more the 30 days to move out. Why can't you support the people or builders creating housing? If you focused on the abusers ( Non payers, and price control, Stop creating more problems, If I wanted to support someone I would of had more kids...Use State property move all the people doing drugs out of the city where they are not abusing people and fowling our sidewalks and public areas. Giving drugs and money will never help anyone not helping themselves. Now help the people that are trying to make it. I think all landlords would help someone trying hard to meet their obligations.
